FREQUENTLY ASKED QUESTIONS

What home automation systems are compatible with Bromic outdoor heaters?

Bromic outdoor heaters can be linked to any home automation device that offers a RS232 communication connection. Many home automation systems will offer a RS232 port either as standard or as a retrofit option.

What do I need to connect my Bromic outdoor heater to my home automation system?

You choose how you wish to control your heater. Any combination and number of Bromic On/Off and/or Dimmer controls together with one Bromic Smart-Heat™ Link*.

How does it work?

The Bromic Smart-Heat™ Link receives commands from the Home Automation System and then repeats these commands via wireless communication to the Bromic Smart Heat™ Controllers.

How is the Bromic Smart-Heat™ Link installed?

The Bromic Smart-Heat™ Link connects to the Home Automation system via a DB9 cable. **PLEASE NOTE:** The Bromic Smart-Heat™ Link does not come pre-paired with any particular control device. Please contact a professional installer or licensed electrician to help you integrate the device with your home automation system. Please refer to our installation notes (separate document).

*Each Smart-Heat Link can communicate with 1799 controllers within a 100 ft range
